*

الملخص

A 3D plot of a crystal structure showing various crystallographic planes and their Miller indices. The planes are labeled with their Miller indices: (205), (113), (820), (92), -1, -2, and -1. The plot also shows a coordinate system with axes labeled 0.73, 0.73, and 0.73. The planes are represented by different colors and orientations, showing their relative positions in the 3D space.
